**Keterangan Program** : "A live webinar forum is held by Kelab Alumni FKA to discuss the problems and solutions during the COVID19 pandemic that affect our graduating students in their career life. This forum is open to all Civil & Structural Engineers, Civil Engineering Students, Academician, Faculty of Civil Engineering Alumni and Industrial Linkages, National & International partners. Two of our alumni were invited as the speakers. Ir. Dr. Salmiza Salleh delivered the topic on Graduate's survival: Enhancing graduate employability for a career ready talent while Ir. Mohd Rashid Ya'acob gave more detail on Post-COVID 19 graduates; Careers Skills to increase the marketability. It is really important to have comments and suggestion from the industry player to the graduating students in order to survive the COVID19 issues. There were 635 participants in the forum via google meet and youtube videos platforms. Form a survey, 43.4% of the participants were our alumni and 56.6% was from non-alumni attendance. The overwhelming feedbacks also can be observed from the comments sections and video playbacks (752 times). "
