

Geoforensic Engineering: An artistic Scientific Evaluation of Geotechnical Failures

12 October 2020

Kategori	: Program Berimpak Tinggi	Sub-Kategori	: Bengkel
Peringkat Pelapor	: Fakulti : Dr. Nurul Ainain binti Mohd Salim	Bahagian	: Akademik
Tempat	: Online: GoogleMeet		
Penganjur	: Faculty of Civil Engineering, UiTM Shah Alam		
Penglibatan/Kerjasama	: Staf, Pelajar, Alumni, Industri – 94 orang		

Keterangan Program : The webinar is given by Ir. Razali Che Embi, a former Director of Unit Cawangan Geoteknik, JKR and Dr Ismacahyadi Bagus, senior lecturer of Faculty of Civil Engineering, UiTM, Shah Alam. This 2 hours webinar is conducted on the 12th October 2020; which discussed on the geotechnical forensic investigation at SK Deshon, Sibul Sarawak and geoforensic investigation: Fundamental essence of Geotechnics. This webinar elaborated on the problem-solving, laboratory and field skills of geotechnical data collected and analyzed to identify the cause of geotechnical failure. This webinar is to enhance the knowledge of practicing engineers as well as FKA staff members to know how Geoforensic investigation is conducted. About 94 participants have joined the webinar which majority are from the industry.
